

### **Lifetime Insect Deterrent**

EC Carpets offers 'Lifetime Insect Deterrent' on all our Solution Dyed Nylon carpets (SDN). Simply put, Solution Dyed Nylon carpets are a synthetic product, and insects cannot feed from it. We recommend regular maintenance of your flooring as insects could be attracted by contamination (i.e. food and liquids). In the unlikely event of this happening and damage was caused it is important to note that it wouldn't be covered by warranty.
