

Features and Benefits

100% New Zealand Premium Wool

Sourced from New Zealand's finest wool-growing regions, Elmsford delivers genuine underfoot warmth and comfort. Wool's natural crimp provides lasting recovery underfoot, preserving its appearance year after year.

CoreLoop™ Construction

EC's signature loop pile construction supports every loop in place, maintaining structural integrity in high-traffic areas. Rated Residential Extra Heavy Duty (6*) and Commercial Heavy Duty (3*), performance that exceeds standard domestic expectations.

PestGuard Pro™ Long-lasting Protection

PestGuard Pro™ uses a next-generation protective treatment that bonds to each wool fibre. Unlike standard industry treatments, it resists UV degradation and it is less likely to wash out over time, delivering lasting protection against wool moths and carpet beetles.

PawGuard™ Pet Friendly Protection

Engineered with PawGuard™ technology, Elmsford resists the wear and claw damage that can compromise ordinary wool carpets. Naturally stain resistant, wool repels spills at the surface for easier cleaning and a lasting, well-kept appearance.

PureAir™ Natural Air Purification

Wool is one of nature's most effective air-purifying fibres. PureAir™ harnesses this natural ability to absorb and neutralise the invisible pollutants that accumulate in everyday home environments, contributing to cleaner, fresher, healthier indoor air for you and your family.
